Typeface: Comic Sans, MS

History: The font was developed in August 1994 by Vincent Connare at Microsoft. Inspired by comic book lettering, Comic Sans was Intended to be a casual, but legible font directed at children. This font attracted me because it is light and casual, and compliments my juvenile arts and crafts theme.

This is a kid friendly poster intended for Pre-K- Elementary school children and teachers who enjoy youthful arts and crafts projects. My design message is that there are so many ways to express creativity in art projects using various supplies.
